Re: 039-11058  
Administrative Amendment to  
Part 70 Permit 039-7201-00018

Dear Mr. McCorkel:

Johnson Controls, Inc. was issued a Part 70 operation permit on January 20, 1999 for an automobile control manufacturing plant located at 1302 East Monroe Street, Goshen, IN 46528. A minor permit modification was issued on May 21, 1999 for the addition of groundwater remediation equipment. A letter informing OAM of typographical errors in the permit was received on June 15, 1999.

The permit incorrectly states that the flow rate for each of the air strippers is 200 gallons per hour. The correct flow rate for each of the air strippers is 200 gallons per minute. Pursuant to the provisions of 326 IAC 2-7-11 the permit is hereby administratively amended to read as follows:

**SECTION D.4 FACILITY OPERATION CONDITIONS**

Facility Description [326 IAC 2-7-5(15)]: Groundwater remediation equipment consisting of:

- (a) six (6) low-level air strippers, each rated at 200 gallons per ~~hour~~ **minute** and each equipped with an air blower operating at a maximum of 1400 actual cubic feet per minute, with emissions being exhausted to six stacks designated AS1 through AS6, and
- (b) one (1) flow distribution water tank, with pumps and associated equipment.

Also, the technical support document incorrectly lists the total flow rate for all six strippers as 1400 gallons per minute. The correct total is 1200 gallons per minute. As a result, potential VOC emissions are not 14.68 tons per year but instead are 12.58 tons per year. Correcting the error has no effect on the permit.

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment and the following revised permit pages to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Allen R. Davidson at (800) 451-6027, press 0 and ask for extension 3-2126, or dial (317) 233-2126.

Sincerely,

Paul Dubenetzky, Chief  
Permits Branch  
Office of Air Management
